## Featured Film

### WOMAN FROM THE BUBBLE

Director: Netta Loevy  
Israel 2007,  
Documentary 59 min.  
Hebrew w/subtitles

People know her from the small bubble on the TV screen where she appears, translating programs into sign language. Outside the bubble, Lee interprets for deaf people in all kinds of situations: at school, in court, in therapy and even in the delivery room. The film goes into the bubble and enters the world of deaf people. It also tells the story of people like Lee, who are living between both worlds, between the majority and the minority, between silence and sound.
