# Download instructions

1

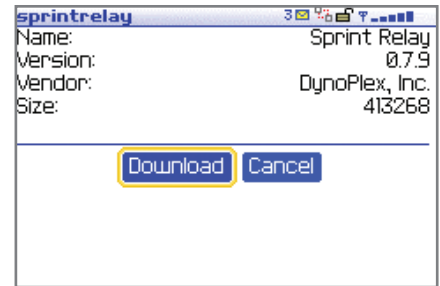

Download the FREE Sprint® IP Wireless application.

Use the BlackBerry Internet Browser...

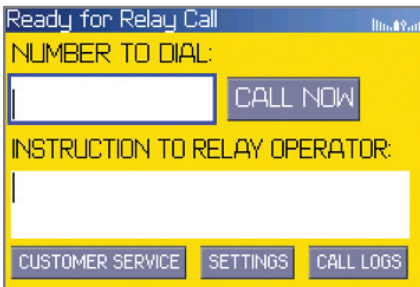

... and go to [www.sprintrelay.com/download/](http://www.sprintrelay.com/download/)

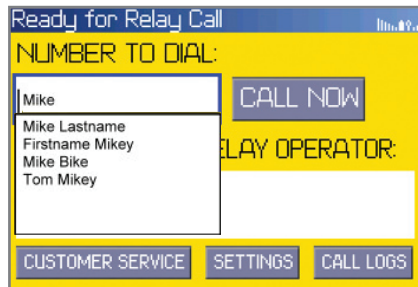

Download the Sprint IP Wireless application.

2

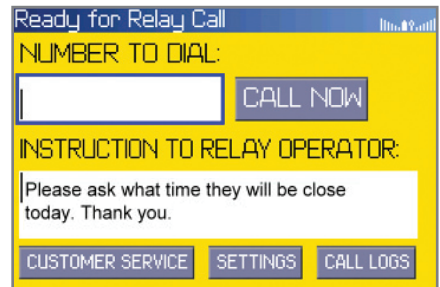

Options on how to make a call:

Enter a 10-digit number in "Number to Dial"...

...or select a name from your BlackBerry contact list.

Either option will allow you to add any operator instructions. Click **Call Now** to begin a Relay call.

**Please Note:** On the first call after downloading the application, the BlackBerry will display the following message: "The Application Sprint IP Wireless has requested an https connection to [www.sprintip.com](http://www.sprintip.com)."

- Click on the trackwheel button to allow "all https connections".
- Scroll down to allow the connection.

This message will also appear when you download a newer version of the application. Follow the steps above.
